ABOUT ME

Trained full-stack engineer interested in making contributions to your project or on your team. Open to new opportunities, available to discuss how I can contribute to your success now or in the future. I thrive in an environment where we provide feedback, work collaboratively, and have a shared commitment to growth. Proven ability to learn and implement python scripting and version control on the job, built web applications utilizing new libraries and frameworks, dove into mobile technologies as well as iOS / Android development.

PROFESSIONAL EXPERIENCE

Apple   2018 - 2019

Software Engineering Intern - QA
